Please see the link below for the Otoe – Missouri RV Park Phase Two. S+R is currently completing Phase One and we've now been asked to provide pricing for phase two. Please keep in mind, the earthwork, utilities and concrete curb is already in place for the Welcome Center. We will be providing all scope necessary to complete the Welcome Center and 11 additional RV Parking locations to the north. Please take a look and provide a detailed breakdown for your particular scope of work. We realize there may be a few missing details and we are working with the Designers to complete this Design, but please provide a Budget for all items listed or shown within the renderings. Please let me know if you have any questions.

Brian,

You have what you need on phase 2 from us, correct? I believe Jason got this in your hands last week. Please confirm.

Thank you!
