to Jarrod Parks, Kenneth Crawford

Jerrod,

Just following up. I want to be sure and get the path app in today. Please let me know.

Sincerely,

Christopher T. Wilson

Jerrod,

Please see quotes attached for Change Orders #1 and #2.

Regarding CO #2, We can't add installation of (15) Picnic Tables for free. We need a minimum for \$1,875 for that portion, as it is added time. That is reflected in the revision questions or need more information.

Regarding the pay app that is due September 18<sup>th</sup>, which I'm working on putting together now – I have a couple of questions:

1. CO1 should be included on this pay-app, correct?
2. Should CO2 be included since the work will be completed prior to next months pay-app date?

Please let me know so I can ensure everything is reflected and processed accordingly.
