

BCM SPORTS

October 04, 2023

Billy,

I look forward to meeting you in person and have enjoyed the conversations we have had over the last few weeks. As you know, my son's Foundation, Brian Crawford Memorial, has been a part of building the Brian Crawford Memorial Sports Complex and is nearing completion. I'm not sure my future status at BCMSC but I am committed to being a part of a youth sports program and building a community about the kids.

Spring baseball season 2022 I had a few teams that participated in the OK Kids baseball league out of Lincoln County. I was involved at the county association meetings with all the other county associations and recognized an organization that is still pure at heart but has failed to move forward or progress into the sporting world we now live in. I have not officially participated in any American Legion Program as an adult but I remember playing American Legion Baseball as well as playing OK Kids. I feel the same can be said for American Legion Baseball that was expressed for OK Kids.

I really think that a mutual partnership can be obtained as OK Kids has a program established for youth but nothing after the 12U division. This would be a great time to have those relationships already established to feed into American Legion Baseball.

I've also been discussing American Legion Fastpitch with Mike Hassan in North Carolina. We seem to be on the same page about building a National Platform for Fastpitch.

Circling back to my future, I'm not sure what my future duties or responsibilities will be, but I would like to help revitalize American Legion Baseball at the SR level while introducing youth baseball, softball as well as Jr, Sr level Fastpitch & Baseball.

OK Kids will be having a meeting soon to discuss the future for OK Kids and it would be very appropriate to submit a document of support and interest to partner in some fashion meaningful for both parties to prosper and help our youth participants.

I have a couple of useful resources that may be of value for American Legion in website operations for a sport organization as well as an in-depth review of software & what defines a user-group.
