Describe in detail the incident, any injuries you received and how the Attorney General can aid you in resolving your issue.			
Through my independent doctoral study dating back to 2005 the State of Oklahoma Youth Sports Business dictates a culture without any oversight protection for Oklahoman's. I have researched and documented \$11,547,043.00 of Oklahoma Consumer money introduced into the Oklahoma economy via USSSA.com and into a very select fee independent contractors. No records for or very questionable records as to where these funds go as no documented outliers can be identified. This is a cash operation that facilitates a culture that is monopolized through the network marketing business model that facilitates Oklahoma Consumer funds filtrating to the State of Florida making a legitimate case stronger. My study has also uncovered the lacking of and questioning municipality integrity and siding with politics. the most recent case study that I conducted in Moore, OK solidified my RICO assumption as a network of USSSA contract labor's created an electronic covert campaign in order to pressure Moore elected officials during their Mayor race.
