Deer Creek....

1. On July 1, 2024 we presented our Team Affidavit Binder to the State Director Mindy Abbott for review and signatures. We had our signatories present to sign their sections in her presence. She took the binder placed it on the ground and moved into a 20 minute explanation of her team, her league and why it was they did not have to wear matching uniforms or have individual numbers. She then took the binder and said she would be at the protest table as she is the protest committee.

Post the games she returned our binder to us not having signed anything. She laughed and said that had we won we would've been disqualified, we in turn insisted that our signatures would be recorded in her presence and she stated, "Your boys are going no where that isn't needed." We insisted and signed our portions in her presence and one of board members

directly asked her to sign her portions. The only item she signed was the cover page of the affidavit and no where else.

2. It was very clear from the beginning of Game 1 that the 4 umpires, the Tournament Director & Tulsa National LL President Steve Skocik or the State Director did not know Little League rules as a multitude of regulation and rule violations were occurring and were not being corrected. After at least 5 game stoppages for the umpires to conference and in turn have me advance to the protest table headed by the State Director Mindy Abbott who in turn refused to enforce Little League rules or take any further action. She claimed she did not believe there were any violations. Even when citing exact rule violations from rule book for being out of the batter's box, leaving base too soon or bat handling issues - on deck batter etc she stated that those were not violations. When asked for further appeal she said that there was none - period.

3. Immediately post games and the binder issues with Mindy Abbott a faction of our DC LL Board very directly protested the games to Mindy Abbott and her son who was 1 of the 4 umpires. This protest lasted for longer than 20 minutes and was joined by Tournament Director/Tulsa National President Skocik and the head umpire who all insisted they followed all rules including calling outs for leaving the base too soon in the last inning. Both Mindy Abbott and Steve Skocik stated that we did not have any right to appeal anything that occurred in either game as they concluded no rules were violated. We asked about appealing further and we're told we did not have that right as it is all a judgement call by the umpires and them as the heads of the Tournament. One of our coaches, Shane Terry, then asked one final time with rule book in hand why Little League rules were not enforced and Steve Skocik with Mindy Abbott stated they did not have to follow that book. They have been doing this for 20 years and they know the rules. He held the book up again and said maybe you need to read the current rules, to which they said they do not have to. I then intervened and asked my board and coach to stop protesting as it was clear they were going to do nothing.

Sincerely,

Robert Looman, President
Deer Creek Little League
