

Bryan Pride

USSSA Director Activity Profile - Executive Research Summary

USSSA Classification	Total Calculated Team Entry Fees	Baseball	Softball
Area Director	\$109,201	\$109,201	\$0
Teams	Divisions	Minimum Games	Minimum Required Officials
532	103	1,302	2,468

Executive Overview

The Hidden Valley - Integrity of the Game USSSA Director Activity Profile identifies **Bryan Pride** as a **USSSA Area Director**. The report organizes publicly available USSSA activity within the Oklahoma USSSA Research Dataset (2001-2026), including tournament and league activity, sport, teams, divisions, minimum games, minimum required officials, seasons, municipalities, counties, facilities, Calculated Team Entry Fees, and USSSA organizational/payment documentation.

This is a USSSA Director Activity Profile, not a revenue, income, compensation, profit, or tax report.

Tournament and League Activity

The Hidden Valley dataset includes both tournament play and USSSA league activity. Some league records may identify teams, divisions, dates, directors, facilities, locations, and other operational information while displaying a **\$0.00 Team Entry Fee**.

\$0.00 in Calculated Team Entry Fees does not necessarily mean \$0.00 in documented operational activity. It means the public USSSA information captured did not identify a Team Entry Fee for that record. Additional records would be necessary to determine whether another fee arrangement existed. No unsupported fee is estimated or imputed.

Calculated Team Entry Fee Methodology

Participating Teams x Publicly Posted Team Entry Fee = Calculated Team Entry Fees. This applies to applicable tournament and league records where a Team Entry Fee is publicly identified.

Calculated Team Entry Fees are analytical measurements derived from public USSSA information. They are not USSSA-reported aggregate revenue, director income, personal compensation, profit, taxable income, net proceeds, or audited financial statements. The **\$109,201** displayed here does not establish that Bryan Pride personally received \$109,201.

Sport and Operational Activity

Page 1 reports **\$109,201 in total Calculated Team Entry Fees**. The full displayed calculated amount is categorized as **baseball - \$109,201**, while softball displays **\$0**. The \$0 softball figure alone does not establish the absence of all softball operational activity because a tournament or league record can report a \$0.00 Team Entry Fee.

The profile identifies **532 teams**, **103 divisions**, **1,302 minimum games**, and **2,468 minimum required officials**. These operational measures describe scale separately from the calculated financial measurement.

Calculated Team Entry Fees by Season

Season	Calculated Team Entry Fees
2018	\$38,816
2019	\$54,000

Season	Calculated Team Entry Fees
2020	\$16,385

2019 at \$54,000 is the largest displayed season, representing approximately 49.5% of the \$109,201 total. The 2018 season accounts for \$38,816 and 2020 accounts for \$16,385.

The displayed pattern rises from 2018 to a peak in 2019 and then declines substantially in 2020. The chart measures Calculated Team Entry Fees by season, not necessarily all operational activity. \$0.00-fee league/event activity may contribute to operational measures without increasing these dollar totals.

Municipality Analysis

Municipality / Combination	Calculated Team Entry Fees
Oklahoma City	\$71,520
Midwest City, Oklahoma City	\$17,993
Midwest City	\$9,147
Choctaw, Oklahoma City	\$3,850
Stillwater	\$2,601
Choctaw	\$2,200
Owasso	\$1,890

Oklahoma City - \$71,520 is the largest single municipality category and represents approximately 65.5% of the total. The report also contains combined municipality categories: **Midwest City, Oklahoma City - \$17,993** and **Choctaw, Oklahoma City - \$3,850**.

Each combined municipality amount represents one pool of Calculated Team Entry Fee activity associated with records identifying that geographic combination. The full amount should not be duplicated across the component municipalities. These figures are geographic associations and do not establish municipal revenue.

Facility Analysis - Single and Multi-Facility Records

Facility / Facility Combination	Calculated Team Entry Fees
The Battlefields	\$71,520
MWC Fred Myers Civic Park, The Battlefields	\$16,925
MWC Fred Myers Civic Park	\$7,075
Bouse Sports Complex, The Battlefields	\$3,850
Choctaw Junior High School	\$2,200
Whittenberg Park	\$1,890
Owasso Sports Park South	\$1,890
MWC Fred Myers Civic Park, Reed Baseball Complex	\$1,422
MWC Fred Myers Civic Park, Reed Baseball Complex, The Battlefields	\$1,068
Others	\$1,361

The Battlefields - \$71,520 is the dominant single-facility category, representing approximately 65.5% of the displayed Calculated Team Entry Fee activity.

The report also contains several **multi-facility categories**: MWC Fred Myers Civic Park / The Battlefields - \$16,925; Bouse Sports Complex / The Battlefields - \$3,850; MWC Fred Myers Civic Park / Reed Baseball Complex - \$1,422; and MWC Fred Myers Civic Park / Reed Baseball Complex / The Battlefields - \$1,068.

Each combined facility amount represents one pool of Calculated Team Entry Fee activity associated with that multi-facility event configuration. The full amount must not be independently attributed to every component facility.

Several facilities appear both independently and in combinations. **The Battlefields** appears independently at \$71,520 and in multiple combined categories. **MWC Fred Myers Civic Park** appears independently at \$7,075 and also in multiple combinations. These are distinct source categories and should remain analytically separate.

The report also displays **Others - \$1,361**. The individual facilities contained within that aggregated category cannot be determined from Page 1, so this analysis preserves the source label rather than assigning the amount to specific facilities.

The facility chart does not establish allocation of Team Entry Fees among facilities, facility rental payments, revenue sharing, facility income, distributions, net proceeds, or subsequent disposition of event funds.

County Analysis

County	Calculated Team Entry Fees
Oklahoma	\$104,710
Payne	\$2,601
Tulsa	\$1,890

Oklahoma County - \$104,710 is overwhelmingly dominant, representing approximately 95.9% of the displayed Calculated Team Entry Fee activity. Payne County accounts for \$2,601 and Tulsa County for \$1,890.

The county distribution is consistent with the municipality and facility concentrations centered on Oklahoma City, Midwest City, Choctaw, The Battlefields, and MWC Fred Myers Civic Park. These values identify geographic associations and do not establish county revenue.

Page 2 - USSSA Organizational and Financial Structure

Page 2 provides organizational and payment-processing context rather than additional Bryan Pride-specific financial findings. The infographic depicts the general authority flow as **USSSA National -> State Director -> Area Director -> Tournament Director -> Tournament/Event -> Teams**.

The infographic describes USSSA National as establishing rules, policies, and procedures and appointing State Directors; State Directors as administering the state program, approving events, and overseeing Area Directors; Area Directors as USSSA appointees/independent contractors; Tournament Directors as managing sanctioned events; and teams as registering for events and potentially paying tournament entry fees.

The report states that Tournament Directors at the state level and below are classified by USSSA as Area Directors and that USSSA appointees generally operate as independent contractors rather than employees.

Applicable Online Payment Pathway

The Page 2 diagram depicts an applicable online pathway as **Teams -> USSSA Online Payment System -> USSSA -> ACH Transfer -> Event/Fiscal Director -> Tournament Operations**. It summarizes USSSA documentation concerning applicable online event-payment processing.

The report does **not** establish that every tournament or league payment associated with Bryan Pride necessarily followed this pathway.

Critical evidentiary limitation: The subsequent disposition of event funds is not determined by the Hidden Valley dataset unless independently documented. The diagram does not establish ownership of funds, individual compensation, tax liability, legal liability, expenses, profit, or ultimate disposition of tournament proceeds.

What the Profile Establishes - and What It Does Not

Publicly Documented Activity: directors, teams, divisions, sports, seasons, facilities, municipalities, counties, tournaments/events, leagues where documented, and related operational information appearing in public records.

Calculated Financial Activity: participating teams multiplied by publicly posted Team Entry Fees where a fee is identified.

\$0.00-Fee Activity: documented tournament or league activity can exist where the publicly available Team Entry Fee reports \$0.00; no unsupported fee is imputed.

USSSA Organizational and Payment Documentation: USSSA materials provide context concerning classifications, independent-contractor status, organizational relationships, and applicable online payment processing.

Unknown Financial Activity: potential locally administered fees, refunds, discounts, expenses, distributions, compensation, net proceeds, tax treatment, facility allocations, and ultimate disposition of event funds cannot be established unless independently documented.

The methodology does not fill evidentiary gaps with assumptions.

What This Report Ultimately Represents

The Bryan Pride report should be understood as a **USSSA Director Activity Profile**, rather than simply a revenue report. It organizes who was associated with the activity, the displayed classification, sport, tournament and league activity where documented, teams and divisions, minimum games and officials, publicly reported Team Entry Fees, Calculated Team Entry Fee activity, seasons, municipalities, counties, facilities and facility combinations, and the organizational/payment structure described in USSSA documentation.

Director-Specific Conclusion

The profile identifies **Bryan Pride as a USSSA Area Director** associated with **\$109,201 in total Calculated Team Entry Fees**. All displayed calculated activity is categorized as **baseball - \$109,201**, while softball displays \$0. The profile identifies **532 teams, 103 divisions, 1,302 minimum games, and 2,468 minimum required officials**.

Calculated Team Entry Fee activity spans **2018 through 2020**, with **2019 at \$54,000** representing the largest season. The largest municipality category is **Oklahoma City at \$71,520**, the largest county category is **Oklahoma County at \$104,710**, and the largest single-facility category is **The Battlefields at \$71,520**.

The facility profile includes both independent single-facility categories and several multi-facility configurations. Those combined amounts remain single pools of Calculated Team Entry Fee activity and cannot be duplicated across their component facilities. The report also contains an aggregated **Others - \$1,361** facility category whose individual facilities cannot be determined from Page 1.

These figures represent Calculated Team Entry Fee activity associated with applicable publicly available USSSA records. They do not establish that Bryan Pride personally received \$109,201, nor do they establish that the listed facilities, municipalities, or counties received the corresponding amounts.

The larger Hidden Valley - Integrity of the Game project applies this methodology consistently across approximately 249 Oklahoma USSSA director profiles so that tournament activity, league activity, sport, Calculated Team Entry Fees, \$0.00-fee activity, facilities, geographic concentration, and operational scale can be evaluated through a common analytical framework.

Research and Methodology Disclaimer

This report is an independent research and analytical publication and is not affiliated with, endorsed by, sponsored by, or prepared on behalf of USSSA (United States Specialty Sports Association) or any governmental entity. Information is compiled from publicly available USSSA tournament/event information, USSSA By-Laws, USSSA Director Support Center documentation, public records, and related research materials.

Calculated Team Entry Fees are estimates derived by multiplying publicly reported team participation by the posted entry fee applicable to the corresponding tournament, event, or division. These amounts should not be interpreted as USSSA-reported revenue, director income, profit, taxable income, or audited financial statements. The organizational and financial-flow graphics are provided for research and explanatory purposes and should not be interpreted as establishing ownership of funds, individual compensation, tax liability, legal liability, or ultimate disposition of tournament proceeds.

Public records and online information may contain omissions, revisions, errors, cancellations, refunds, discounts, payment adjustments, or other circumstances that cannot be independently verified from publicly available information. This report is presented for research, education, transparency, and public-interest analysis. Readers should independently review the cited source materials before drawing legal, financial, tax, or regulatory conclusions.
