

Chuck McKibben

USSSA Director Activity Profile - Executive Research Summary

USSSA Classification	Total Calculated Team Entry Fees	Baseball	Softball
Area Director	\$131,615	\$31,715	\$99,900
Teams	Divisions of Play	Minimum Games	Minimum Required Officials
649	82	1,582	3,133

Executive Overview

The Hidden Valley - Integrity of the Game USSSA Director Activity Profile identifies **Chuck McKibben** as a **USSSA Area Director**. The profile organizes publicly available USSSA activity into a consistent analytical framework covering sport, teams, divisions, minimum games, minimum required officials, seasons, municipalities, counties, facilities, and Calculated Team Entry Fees. The underlying Hidden Valley dataset includes both tournament and league activity and forms part of the Oklahoma USSSA Research Dataset (2001-2026).

This document should be understood as a USSSA Director Activity Profile, not as a revenue, income, compensation, profit, or tax report.

Calculated Team Entry Fee Methodology

Participating Teams x Publicly Posted Team Entry Fee = Calculated Team Entry Fees. This methodology applies to applicable tournament and league records where a Team Entry Fee is publicly identified. When a record displays a \$0.00 Team Entry Fee, the dataset records \$0.00 rather than estimating or imputing an unsupported fee.

\$0.00 in Calculated Team Entry Fees does not necessarily mean \$0.00 in documented operational activity. A tournament or league can have teams, divisions, dates, facilities, games, and other documented activity while contributing \$0.00 to Calculated Team Entry Fees. Additional records would be necessary to determine whether any locally administered fee arrangement existed.

Calculated Team Entry Fees should not be interpreted as USSSA-reported aggregate revenue, director income, personal compensation, profit, taxable income, net proceeds, or audited financial statements.

Sport and Operational Activity

Page 1 reports **\$131,615** in total Calculated Team Entry Fees. Unlike a single-sport profile, the displayed calculated total includes activity in **both sports: baseball - \$31,715 and softball - \$99,900**. Softball accounts for the larger share of the calculated activity shown in the profile.

The report also identifies **649 teams, 82 divisions of play, 1,582 minimum games played, and 3,133 minimum required officials**. These operational measurements describe the scale represented in the underlying records separately from the calculated financial measurement.

Calculated Team Entry Fees by Season

Season	Calculated Team Entry Fees
2018	\$25,950
2019	\$22,775

Season	Calculated Team Entry Fees
2020	\$26,715
2021	\$19,360
2022	\$18,475
2023	\$15,400
2024	\$2,940

The largest season displayed is **2020 at \$26,715**, followed by 2018 at \$25,950 and 2019 at \$22,775. The chart shows a general reduction in Calculated Team Entry Fee activity after 2020, with 2024 displaying \$2,940, the lowest season in the profile. The chart measures calculated dollar activity by season and does not necessarily capture all operational activity that may be represented by \$0.00-fee records.

Municipality and County Concentration

Dimension	Location	Calculated Team Entry Fees
Municipality	Miami	\$131,615
County	Ottawa	\$131,615

The municipality and county charts are completely concentrated: **100% of the displayed \$131,615 in Calculated Team Entry Fees is associated with Miami and Ottawa County**. These amounts identify geographic associations in the applicable USSSA records. They should not be characterized as municipal or county revenue.

Facility Analysis - Single and Multi-Facility Records

Facility / Facility Combination	Calculated Team Entry Fees
Joe Booth Sports Complex	\$94,100
Jody Stoops Fields	\$19,825
Francis Morgan Field, Jody Stoops Fields	\$4,265
Joe Booth Sports Complex, Turner Field	\$4,200
Joe Pollock Sports Complex	\$3,275
Francis Morgan Field	\$2,750
Francis Morgan Field; Jody Stoops Fields	\$1,600
Eric Iverson Field (NEO Campus), Joe Booth Sports Complex	\$1,600

Joe Booth Sports Complex at \$94,100 is the dominant single-facility concentration, accounting for the clear majority of the displayed facility-associated Calculated Team Entry Fee activity. **Jody Stoops Fields at \$19,825** is the second-largest independent single-facility category.

The source report also contains several **multi-facility categories**. Each combined amount represents one pool of Calculated Team Entry Fee activity associated with event records identifying that facility combination. The full amount must not be duplicated across the component facilities.

For example, **Francis Morgan Field, Jody Stoops Fields - \$4,265** means \$4,265 is associated with that combined facility configuration; it does not establish \$4,265 for Francis Morgan Field plus another \$4,265 for Jody Stoops Fields. The same rule applies to **Joe Booth Sports Complex, Turner Field - \$4,200**, **Francis Morgan Field; Jody Stoops Fields - \$1,600**, and **Eric Iverson Field (NEO Campus), Joe Booth Sports Complex - \$1,600**.

The report displays two separately labeled Francis Morgan Field / Jody Stoops Fields combinations, one using a comma and one using a semicolon, with different calculated amounts. Because the source treats them as separate categories, this summary preserves them separately rather than merging them.

Some facilities also appear both independently and in a multi-facility category. Joe Booth Sports Complex appears independently at \$94,100 and separately with Turner Field at \$4,200 and with Eric Iverson Field (NEO Campus) at \$1,600. Francis Morgan Field appears independently at \$2,750 and separately in two combinations with Jody Stoops Fields. These are distinct categories in the source report.

Facility limitation: The facility chart identifies the facility or combination of facilities associated with the applicable event record. It does not, by itself, establish facility rental payments, revenue sharing, facility income, allocation of Team Entry Fees among facilities, distributions, net proceeds, or subsequent disposition of event funds.

Page 2 - USSSA Organizational & Financial Structure

Page 2 provides organizational and payment-processing context rather than additional Chuck McKibben-specific financial findings. The infographic depicts the general organizational authority flow as:

USSSA National	State Director	Area Director	Tournament Director	Tournament / Event	Teams
----------------	----------------	---------------	---------------------	--------------------	-------

USSSA National is depicted as establishing rules, policies, and procedures and appointing State Directors. State Directors administer the program within the state, approve events, and oversee Area Directors. The Area Director is depicted as a USSSA appointee/independent contractor operating within the jurisdiction defined by the State Director. Tournament Directors manage sanctioned events, while teams register for events and may pay tournament entry fees.

The infographic reiterates that Tournament Directors at the state level and below are classified by USSSA as Area Directors and that USSSA appointees generally operate as independent contractors rather than employees.

Applicable Online Payment Pathway

Teams	USSSA Online Payment System	USSSA	ACH Transfer	Event / Fiscal Director	Tournament Operations
-------	-----------------------------	-------	--------------	-------------------------	-----------------------

The Page 2 infographic describes USSSA documentation concerning an **applicable online event-payment process**: teams may pay tournament entry fees through the USSSA online payment system; applicable online event payments are processed through USSSA; and USSSA documentation describes applicable event funds being transmitted by ACH to the Event/Fiscal Director.

The report does **not** establish that every tournament or league payment associated with Chuck McKibben necessarily followed this pathway. The graphic provides contextual documentation concerning an applicable USSSA online payment process.

Critical evidentiary limitation: The subsequent disposition of event funds is not determined by the Hidden Valley dataset unless independently documented. The graphic does not establish ownership of funds, individual compensation, tax liability, legal liability, expenses, profit, or ultimate disposition of tournament proceeds.

What the Profile Establishes - and What It Does Not

Publicly Documented Activity: directors, teams, divisions, sports, seasons, facilities and facility combinations, municipalities, counties, tournaments/events, leagues where documented, and related operational information appearing in the underlying public records.

Calculated Financial Activity: participating teams multiplied by publicly posted Team Entry Fees where a fee is identified.

\$0.00-Fee Activity: documented tournament or league activity can exist even where the publicly available Team Entry Fee reports \$0.00; no unsupported fee is imputed.

USSSA Organizational and Payment Documentation: USSSA materials provide context concerning director classifications, independent-contractor status, organizational relationships, and applicable online payment processing.

Unknown Financial Activity: potential locally administered fees, refunds, discounts, expenses, distributions, compensation, net proceeds, tax treatment, allocation among facilities, and ultimate disposition of event funds cannot be established from this profile unless independently documented.

The methodology does not fill evidentiary gaps with assumptions.

What This Report Ultimately Represents

The Chuck McKibben report is best understood as a **USSSA Director Activity Profile**. It is designed to organize who was associated with the activity, the displayed USSSA classification, whether calculated activity appears in baseball, softball, or both, the operational scale represented by teams and divisions, the minimum games and officials reflected in the records, the seasons and geographic footprint, the facilities and facility combinations associated with event records, and the organizational/payment structure described in USSSA documentation.

Director-Specific Conclusion

The profile identifies **Chuck McKibben as a USSSA Area Director** associated with **\$131,615 in total Calculated Team Entry Fees**. The displayed calculated activity includes **\$31,715 in baseball** and **\$99,900 in softball**, making this a dual-sport profile rather than a single-sport profile. The report identifies **649 teams, 82 divisions, 1,582 minimum games, and 3,133 minimum required officials**.

Calculated Team Entry Fee activity spans **2018 through 2024**, with **2020 at \$26,715** representing the largest season. The municipality and county footprint is completely concentrated in **Miami / Ottawa County**, each associated with the full **\$131,615** calculated total.

The facility profile is materially more complex. **Joe Booth Sports Complex at \$94,100** is the dominant single-facility category, while the report also contains several distinct multi-facility combinations. Those combined amounts must remain single pools and cannot be duplicated across their component facilities.

These figures represent Calculated Team Entry Fee activity associated with applicable publicly available USSSA records. They do not establish that Chuck McKibben personally received \$131,615, nor do they establish that Miami, Ottawa County, Joe Booth Sports Complex, or any other facility received the corresponding displayed amounts.

The larger Hidden Valley - Integrity of the Game project applies this methodology consistently across approximately 249 Oklahoma USSSA director profiles so that tournament activity, league activity, sport, Calculated Team Entry Fees, \$0.00-fee activity, facilities, geographic concentration, and operational scale can be evaluated through a common analytical framework.

Research & Methodology Disclaimer

This report is an independent research and analytical publication and is not affiliated with, endorsed by, sponsored by, or prepared on behalf of USSSA (United States Specialty Sports Association) or any governmental entity. Information is compiled from publicly available USSSA tournament/event information, USSSA By-Laws, USSSA Director Support Center documentation, public records, and related research materials.

Calculated Team Entry Fees are estimates derived by multiplying publicly reported team participation by the posted entry fee applicable to the corresponding tournament, event, or division. These amounts should not be interpreted as USSSA-reported revenue, director income, profit, taxable income, or audited financial statements. The organizational and financial-flow graphics are provided for research and explanatory purposes and should not be interpreted as establishing ownership of funds, individual

compensation, tax liability, legal liability, or ultimate disposition of tournament proceeds.

Public records and online information may contain omissions, revisions, errors, cancellations, refunds, discounts, payment adjustments, or other circumstances that cannot be independently verified from publicly available information. Readers should independently review the cited source materials before drawing legal, financial, tax, or regulatory conclusions.
