

Eric Jennings

USSSA Director Activity Profile - Executive Research Summary

USSSA Classification	Total Calculated Team Entry Fees	Baseball	Softball
Area Director	\$63,977	\$0	\$63,977
Teams	Divisions	Minimum Games	Minimum Required Officials
282	34	774	1,375

Executive Overview

The Hidden Valley - Integrity of the Game USSSA Director Activity Profile identifies **Eric Jennings** as a **USSSA Area Director**. The report organizes publicly available Oklahoma USSSA activity into a standardized analytical framework covering sport, teams, divisions, minimum games, minimum required officials, seasons, municipalities, counties, facilities, and Calculated Team Entry Fees.

The profile reports **\$63,977 in total Calculated Team Entry Fees**, displayed as **\$0 baseball** and **\$63,977 softball**. It also identifies **282 teams**, **34 divisions**, **774 minimum games**, and **1,375 minimum required officials**.

This is a USSSA Director Activity Profile, not a revenue, income, compensation, profit, or tax report.

Tournament and League Activity

The broader Hidden Valley Oklahoma USSSA Research Dataset (2001-2026) includes both tournament play and league play. Some league records may identify participating teams, divisions, dates, directors, facilities, locations, and other operational information while displaying a **\$0.00 Team Entry Fee**.

\$0.00 in Calculated Team Entry Fees does not necessarily mean \$0.00 in documented operational activity. A \$0.00 publicly reported Team Entry Fee means the captured public USSSA information did not identify a Team Entry Fee for that record. It could reflect an apparently free league or another arrangement not visible in that field; additional records would be required to determine what actually occurred. The dataset does not estimate or impute an unsupported fee.

The attached Eric Jennings profile does not separately quantify tournament-versus-league activity, so no director-specific allocation between those forms of play is inferred.

Calculated Team Entry Fee Methodology

Participating Teams x Publicly Posted Team Entry Fee = Calculated Team Entry Fees. This methodology applies to applicable tournament and league records where a Team Entry Fee is publicly identified. When the public record displays \$0.00, the dataset records \$0.00.

Calculated Team Entry Fees are analytical measurements derived from public USSSA information. They should not be characterized as USSSA-reported aggregate revenue, director income, personal compensation, profit, taxable income, net proceeds, or audited financial statements. The displayed **\$63,977** does not establish that Eric Jennings personally received \$63,977.

Page 1 - Financial and Operational Analysis

All displayed Calculated Team Entry Fee activity is categorized as softball: **\$63,977 softball** and **\$0 baseball**. The \$0 baseball scorecard should not automatically be interpreted as proof that no baseball operational activity existed, because underlying tournament or league records can display a \$0.00 Team Entry Fee.

Operationally, the profile identifies **282 teams**, **34 divisions**, **774 minimum games**, and **1,375 minimum required officials**. These measures describe the scale of activity separately from the calculated financial measurement.

Calculated Team Entry Fees by Season

Season	Calculated Team Entry Fees	Share of Total
2012	\$36,596	57.2%
2013	\$14,969	23.4%

Season	Calculated Team Entry Fees	Share of Total
2011	\$12,412	19.4%

2012 - \$36,596 is the largest displayed season, representing approximately 57.2% of the \$63,977 total. The report also displays **2013 - \$14,969** and **2011 - \$12,412**. The chart measures Calculated Team Entry Fees by season, not necessarily all operational activity occurring during each year.

Municipality Analysis

Municipality	Calculated Team Entry Fees	Approx. Share
Citizen Potawatomi Nation	\$33,828	52.9%
Moore	\$17,737	27.7%
Midwest City	\$12,412	19.4%

Citizen Potawatomi Nation - \$33,828 is the largest municipality-dimension association, followed by **Moore - \$17,737** and **Midwest City - \$12,412**. These amounts represent geographic associations in applicable USSSA records and should not be interpreted as municipal or tribal revenue.

Facility Analysis

Facility	Calculated Team Entry Fees	Record Classification
Firelake Ballfields	\$33,828	Single facility
Buck Thomas Park	\$17,737	Single facility
Reed Baseball Complex	\$12,412	Single facility

Firelake Ballfields - \$33,828 is the largest facility concentration, followed by **Buck Thomas Park - \$17,737** and **Reed Baseball Complex - \$12,412**. Each is displayed independently as a single-facility category; the source profile does not display a multi-facility grouping for Eric Jennings.

Facility data does not, by itself, establish how Team Entry Fees were allocated, facility rental payments, revenue sharing, facility income, distributions, net proceeds, or subsequent disposition of event funds.

County Analysis

County	Calculated Team Entry Fees	Approx. Share
Pottawatomie	\$33,828	52.9%
Cleveland	\$17,737	27.7%
Oklahoma	\$12,412	19.4%

Pottawatomie County - \$33,828 is the largest county association, followed by **Cleveland County - \$17,737** and **Oklahoma County - \$12,412**. The geographic pattern corresponds to the municipality/facility concentrations shown on Page 1 without establishing that the counties received these amounts.

Page 2 - USSSA Organizational and Financial Structure

Page 2 provides organizational and payment-flow context rather than additional Eric Jennings-specific financial findings. The organizational authority graphic depicts **USSSA National -> State Director -> Area Director -> Tournament Director -> Tournament/Event -> Teams**.

USSSA National is depicted as establishing rules, policies, and procedures and appointing State Directors. State Directors administer the USSSA program within the state, approve events, and oversee Area Directors. Area Directors are depicted as USSSA appointees/independent contractors operating within the jurisdiction defined by the State Director and ensuring compliance with USSSA requirements. Tournament Directors manage sanctioned events.

The report states that Tournament Directors at the state level and below are classified by USSSA as Area Directors and that USSSA appointees generally operate as independent contractors rather than employees.

Applicable Online Payment Pathway

The Page 2 financial-flow infographic depicts an applicable pathway as **Teams -> USSSA Online Payment System -> USSSA -> ACH Transfer -> Event/Fiscal Director -> Tournament Operations**.

The graphic states that teams may pay tournament entry fees during registration; USSSA documentation describes online event-payment processing through its platform; applicable online event payments are processed through USSSA's payment system; and USSSA documentation describes event funds being transmitted to the applicable director through ACH.

The infographic does **not** establish that every tournament or league payment associated with Eric Jennings necessarily followed this pathway. It summarizes USSSA documentation concerning applicable online event-payment processing rather than tracing a specific Eric Jennings transaction.

Critical evidentiary limitation: the subsequent disposition of event funds is not determined by the Hidden Valley dataset unless independently documented.

What the Profile Establishes - and What It Does Not

Publicly Documented Activity: Eric Jennings; displayed Area Director classification; sport; teams; divisions; minimum games; minimum required officials; seasons; municipality, county, and facility associations shown in the report.

Calculated Financial Activity: participating teams multiplied by publicly posted Team Entry Fees where a fee is identified, producing the displayed \$63,977 Calculated Team Entry Fee total.

\$0.00-Fee Activity: the broader methodology recognizes documented tournament or league activity where the publicly available Team Entry Fee reports \$0.00. No unsupported fee is imputed.

USSSA Organizational and Payment Documentation: Page 2 provides context concerning director classifications, independent-contractor status, organizational relationships, and applicable online payment processing.

Unknown Financial Activity: the report does not establish locally administered fees, refunds, discounts, expenses, distributions, compensation, net proceeds, tax treatment, or ultimate disposition of event funds.

The methodology does not fill evidentiary gaps with assumptions.

What This Report Ultimately Represents

The Eric Jennings report should be understood as a **USSSA Director Activity Profile** rather than simply a revenue report. It is designed to organize who was associated with the activity, the displayed USSSA classification, sport, operational scale, Calculated Team Entry Fees, timing, geography, facility concentration, and the organizational/payment context described in USSSA documentation.

Director-Specific Conclusion

The profile identifies **Eric Jennings as a USSSA Area Director** associated with **\$63,977 in total Calculated Team Entry Fees**, displayed as **\$0 baseball** and **\$63,977 softball**. It identifies **282 teams, 34 divisions, 774 minimum games, and 1,375 minimum required officials**.

2012 - \$36,596 is the largest displayed season. The largest municipality association is **Citizen Potawatomi Nation - \$33,828**; the largest county association is **Pottawatomie County - \$33,828**; and the largest facility concentration is **Firelake Ballfields - \$33,828**. Additional activity is associated with **Moore / Cleveland County / Buck Thomas Park - \$17,737** and **Midwest City / Oklahoma County / Reed Baseball Complex - \$12,412**.

These figures do not establish that Eric Jennings personally received \$63,977, nor that any municipality, tribal government, county, or facility received the corresponding Calculated Team Entry Fee amounts. The larger Hidden Valley project applies this methodology consistently across approximately 249 Oklahoma USSSA director profiles.

Research and Methodology Disclaimer

This report is an independent research and analytical publication and is not affiliated with, endorsed by, sponsored by, or prepared on behalf of USSSA (United States Specialty Sports Association) or any governmental entity. Information is compiled from publicly available USSSA tournament/event information, USSSA By-Laws, USSSA Director Support Center documentation, public records, and related research materials.

Calculated Team Entry Fees are estimates derived by multiplying publicly reported team participation by the posted entry fee applicable to the corresponding tournament, event, or division. These amounts should not be interpreted as USSSA-reported revenue, director income, profit, taxable income, or audited financial statements. Organizational and financial-flow graphics are provided for research and explanatory purposes and should not be interpreted as establishing ownership of funds, individual compensation, tax liability, legal liability, or ultimate disposition of tournament proceeds.

Public records and online information may contain omissions, revisions, errors, cancellations, refunds, discounts, payment adjustments, or other circumstances that cannot be independently verified from publicly available information. This report is presented for research, education, transparency, and public-interest analysis. Readers should independently review cited source materials before drawing legal, financial, tax, or regulatory conclusions.
