Purpose and Scope

This professional report explains the **Hidden Valley - Integrity of the Game USSSA Director Activity Profile for Matt Purser**. The underlying Oklahoma USSSA Research Dataset (2001-2026) includes both tournament play and league play and organizes publicly available USSSA activity into a common analytical framework covering sport, teams, divisions, games, officials, Calculated Team Entry Fees, seasons, municipalities, facilities, and counties.

Tournament and League Activity

The dataset is not limited to tournaments. Some league records may identify participating teams, divisions, league start and finish dates, facilities, directors, and other activity while displaying a **\$0.00 Team Entry Fee**.

\$0.00 in Calculated Team Entry Fees does not necessarily mean \$0.00 in documented operational activity. A \$0.00 publicly reported fee means the public USSSA information captured in the dataset did not identify a Team Entry Fee for that record. The dataset does not estimate or impute an unsupported fee.

Calculated Team Entry Fee Methodology

Number of Participating Teams x Publicly Posted Team Entry Fee = Calculated Team Entry Fees.

These calculated figures should not be interpreted as USSSA-reported aggregate revenue, director income, personal compensation, profit, taxable income, net proceeds, or audited financial statements.

It also describes USSSA documentation concerning applicable online event payments as **Teams -> USSSA Online Payment System -> USSSA -> ACH -> Event/Fiscal Director**. This should not be interpreted as establishing that every tournament or league payment necessarily followed that pathway.

The subsequent disposition of event funds is not determined by the Hidden Valley dataset unless independently documented.
