HIDDEN VALLEY - INTEGRITY OF THE GAME

USSSA DIRECTOR ACTIVITY PROFILE - JACE SANCHEZ

Metric	Value	Metric	Value
Total Calculated Team Entry Fees	$604,434	Baseball	$0
Softball	$604,434	Teams	2,394
Minimum Games Played	7,842	Minimum Required Officials	14,856
Divisions of Play	298	USSSA Classification	Area Director

Executive Overview

This report presents the **Hidden Valley - Integrity of the Game USSSA Director Activity Profile for Jace Sanchez**. It applies the standardized Oklahoma USSSA Research Dataset (2001-2026) methodology to publicly available USSSA activity associated with Jace Sanchez. The framework examines sport, teams, divisions, minimum games, minimum required officials, Calculated Team Entry Fees, seasons, municipalities, counties, facilities, and USSSA organizational/payment context.

The source report identifies **Jace Sanchez as a USSSA Area Director**. It also states that Tournament Directors at the state level and below are classified by USSSA as Area Directors and that USSSA appointees generally operate as independent contractors rather than employees.

Quantitative Activity Snapshot

The profile displays **$604,434 in Total Calculated Team Entry Fees**, consisting of **$0 baseball** and **$604,434 softball**. Operationally, the report displays **2,394 teams, 298 divisions of play, 7,842 minimum games played, and 14,856 minimum required officials**.

The $0 baseball scorecard establishes $0 in Calculated Team Entry Fees attributed to baseball in the displayed report. Under the standardized methodology, a $0 sport scorecard should not automatically be interpreted as proof that no underlying activity occurred in that sport unless the underlying records establish that conclusion.

Tournament, League & $0.00-Fee Methodology

The Hidden Valley dataset includes both tournament and league activity. Some league records may identify teams, divisions, start and finish dates, directors, facilities, locations, and other operational information while displaying a **$0.00 Team Entry Fee**.

$0.00 in Calculated Team Entry Fees does not necessarily mean $0.00 in documented operational activity. A $0.00 publicly reported Team Entry Fee means the public USSSA information captured did not identify a Team Entry Fee for that record. Additional records would be required to determine whether a league actually charged no fee or whether a fee was administered locally outside the public Team Entry Fee field.

Participating Teams x Publicly Posted Team Entry Fee = Calculated Team Entry Fees. When the public record displays $0.00, the dataset records $0.00 rather than estimating an unsupported fee. Calculated Team Entry Fees are not USSSA-reported aggregate revenue, director income, personal compensation, profit, taxable income, net proceeds, or audited financial statements.

Calculated Team Entry Fees by Season

Season	Calculated Team Entry Fees
2026	$147,948
2025	$90,075
2024	$102,482
2023	$69,832
2022	$86,685
2021	$68,225
2020	$39,187

2026 is the largest displayed season at $147,948, followed by 2024 at $102,482 and 2025 at $90,075. The visible report covers 2020 through 2026. This chart measures Calculated Team Entry Fee activity by season and does not necessarily capture all operational activity because $0.00-fee tournament or league records may contribute operational measures without increasing the dollar totals.

Calculated Team Entry Fees by Municipality

Municipality / Configuration	Calculated Team Entry Fees
Owasso	$296,826
Bixby	$147,100
Tulsa	$66,550
Owasso / Skiatook	$55,481
Skiatook	$16,072
Bixby / Tulsa	$11,485
Bixby / Owasso	$5,580
Owasso / Tulsa	$5,190
Bixby / Tulsa (semicolon configuration)	$150

Owasso is the largest individually displayed municipality classification at $296,826, followed by Bixby at $147,100 and Tulsa at $66,550. The report also contains multi-municipality classifications. Those combined amounts remain single geographic activity pools and are not independently attributed in full to every municipality named. These figures identify geographic associations and should not be characterized as municipal revenue.

Calculated Team Entry Fees by Facility

Facility / Configuration	Calculated Team Entry Fees
Owasso Sports Park North	$296,826
Bentley Sports Complex	$147,100
Carl Smith Sports Complex	$66,550
Owasso Sports Park North / Skiatook Sports Complex	$55,481
Skiatook Sports Complex	$16,072
Bentley Sports Complex / Carl Smith Sports Complex	$11,485
Carl Smith Sports Complex / Owasso Sports Park North	$5,190
Bentley Sports Complex / Owasso Sports Park North	$3,240
Bentley Sports Complex / Owasso Sports Park North	$2,340
Bentley Park Sports Complex / Carl Smith Sports Complex	$150

Owasso Sports Park North is the largest individually displayed facility classification at $296,826, followed by Bentley Sports Complex at $147,100 and Carl Smith Sports Complex at $66,550.

The facility chart requires special treatment because it contains both single-facility and multi-facility records. For example, **Owasso Sports Park North / Skiatook Sports Complex - $55,481** is one pool of Calculated Team Entry Fee activity associated with that combined facility configuration; it is not $55,481 independently attributable to each facility. The same principle applies to the other combined facility records.

The source chart separately displays two **Bentley Sports Complex / Owasso Sports Park North** classifications at **$3,240** and **$2,340**. Because the supplied report displays them as separate bars, they are preserved separately here rather than silently consolidated. The report alone does not explain why they are separate classifications.

Facility data does not establish how Team Entry Fees were allocated among facilities, facility rental payments, revenue sharing, facility income, distributions, net proceeds, or subsequent disposition of event funds.

Calculated Team Entry Fees by County

County / Configuration	Calculated Team Entry Fees
Tulsa	$527,541
Osage / Rogers / Tulsa	$55,481
Osage	$16,072
Rogers / Tulsa	$5,190
Tulsa / Wagoner	$150

Tulsa County overwhelmingly dominates the county analysis at $527,541. Multi-county classifications remain intact as combined geographic pools. The full amount is not independently attributed to each county appearing in a combination.

Cross-Dimension Geographic Pattern

The report shows a strong Tulsa-area concentration. Owasso is the leading municipality at $296,826, Owasso Sports Park North is the leading facility at the same $296,826, and Tulsa County accounts for $527,541 in the county dimension. Bixby, Tulsa, Skiatook, and several combined geographic/facility configurations account for most of the remaining displayed activity. These relationships support geographic concentration findings but do not establish who ultimately received event proceeds.

Page 2 - USSSA Organizational Structure

Page 2 provides contextual organizational information rather than additional Jace Sanchez-specific financial findings. The infographic depicts the general authority flow as **USSSA National -> State Director -> Area Director -> Tournament Director -> Tournament/Event -> Teams**.

The graphic describes USSSA National as establishing rules, policies and procedures and appointing State Directors; State Directors as administering USSSA programs within the state, approving events and overseeing Area Directors; Area Directors as USSSA appointees/independent contractors operating within a defined jurisdiction; Tournament Directors as managing sanctioned events; and teams as registering for events and paying applicable tournament entry fees.

Page 2 - Applicable Online Payment Flow

The infographic depicts an applicable online payment pathway as **Teams -> USSSA Online Payment System -> USSSA -> ACH -> Event/Fiscal Director -> Tournament Operations**. It explains that teams pay applicable entry fees during registration, USSSA processes applicable online event payments through its system, and event funds may be transmitted by ACH to the applicable Event/Fiscal Director.

This is explanatory documentation and should not be interpreted to mean every tournament or league payment necessarily followed that exact pathway. **The subsequent disposition of event funds is not determined by the Hidden Valley dataset unless independently documented.** The graphic does not establish ownership of funds, individual compensation, tax liability, legal liability, or ultimate disposition of tournament proceeds.

What the Profile Establishes - and What It Does Not

Publicly Documented / Calculated	Not Established by Dataset Alone
Jace Sanchez is identified as a USSSA Area Director.	Personal income or compensation received by Jace Sanchez.
$604,434 in Total Calculated Team Entry Fees, all categorized as softball.	Actual event net profit, taxable income, or audited financial results.
2,394 teams, 298 divisions, 7,842 minimum games and 14,856 minimum required officials.	That Calculated Team Entry Fees equal money personally received.
Season, municipality, county and facility associations shown in the report.	Allocation or ultimate disposition of event funds.
Single- and multi-location classifications shown in the report.	The full value of a multi-location record independently attributable to every listed location.
Tournament and league activity may include $0.00-fee operational records.	Whether any $0.00-fee league or event collected fees locally.

Jace Sanchez - Director-Specific Summary

The report identifies **Jace Sanchez as a USSSA Area Director** and displays **$604,434 in Total Calculated Team Entry Fees, all categorized as softball**, together with **2,394 teams, 298 divisions, 7,842 minimum games played, and 14,856 minimum required officials**.

The largest displayed season is **2026 at $147,948**. **Owasso is the primary municipality at $296,826**, **Tulsa County is the primary county classification at $527,541**, and **Owasso Sports Park North is the primary individually displayed facility at $296,826**.

The report contains numerous multi-municipality, multi-facility, and multi-county configurations. Those values are preserved as single activity pools to avoid double counting. The $0 baseball scorecard is treated as $0 in Calculated Team Entry Fees and is not automatically interpreted as proof of no underlying baseball activity without additional supporting records.

What This Report Ultimately Represents

This document should be understood as a **USSSA Director Activity Profile rather than simply a revenue report**. It combines calculated financial measurement with operational measurement: who was associated with the activity; the USSSA classification displayed; sport; tournament and league activity where documented; teams and divisions; minimum games and officials; publicly posted Team Entry Fees; Calculated Team Entry Fee activity; seasons; municipalities; counties; facilities or combinations of facilities; and USSSA organizational/applicable online-payment documentation.

The larger Hidden Valley project applies this methodology consistently across approximately **249 Oklahoma USSSA Director Activity Profiles** so that tournament activity, league activity, sport, Calculated Team Entry Fees, $0.00-fee activity, facilities, geographic concentration, and operational scale can be evaluated using a common analytical framework.

Research & Methodology Disclaimer

This document is an independent research and analytical publication and is **not affiliated with, endorsed by, sponsored by, or prepared on behalf of USSSA (United States Specialty Sports Association)** or any governmental entity. Information in the supplied report was compiled from publicly available USSSA tournament/event information, USSSA By-Laws, USSSA Director Support Center documentation, public records, and related research materials.

Financial figures identified as Team Entry Fees are calculated estimates derived by multiplying publicly reported team participation by the posted entry fee applicable to the corresponding tournament, event, or division. These calculated amounts should **not** be interpreted as USSSA-reported revenue, Jace Sanchez's income, profit, taxable income, personal compensation, net proceeds, or audited financial statements.

The organizational and financial-flow graphics are provided for research and explanatory purposes. They should not be interpreted as establishing ownership of funds, individual compensation, tax liability, legal liability, or ultimate disposition of tournament proceeds. Public records and online data may contain omissions, revisions, errors, cancellations, refunds, discounts, payment adjustments, or other circumstances that cannot be independently verified from publicly available information.

The methodology does not fill evidentiary gaps with assumptions. Readers should independently review the cited source materials before drawing legal, financial, tax, or regulatory conclusions.
