HIDDEN VALLEY - INTEGRITY OF THE GAME

USSSA DIRECTOR ACTIVITY PROFILE - SAM GOEBEL - MSP SPORTS

Metric	Value	Metric	Value
Total Calculated Team Entry Fees	$459,987	Baseball	$0
Softball	$459,987	Teams	789
Minimum Games Played	2,730	Minimum Required Officials	5,460
Divisions of Play	43	USSSA Classification	Area Director

Executive Overview

This report presents the **Hidden Valley - Integrity of the Game USSSA Director Activity Profile for Sam Goebel - MSP Sports**. It applies the standardized Oklahoma USSSA Research Dataset (2001-2026) methodology to publicly available USSSA activity associated with the profile, including sport, teams, divisions, minimum games, minimum required officials, Calculated Team Entry Fees, seasons, municipality, county, facility classifications, and USSSA organizational/payment context.

The source report identifies **Sam Goebel - MSP Sports as a USSSA Area Director**. Its classification statement explains that Tournament Directors at the state level and below are classified by USSSA as Area Directors and that USSSA appointees generally operate as independent contractors rather than employees.

Quantitative Activity Snapshot

The profile displays **$459,987 in Total Calculated Team Entry Fees**, consisting of **$0 baseball** and **$459,987 softball**. Operationally, it displays **789 teams, 43 divisions of play, 2,730 minimum games played, and 5,460 minimum required officials**.

All displayed Calculated Team Entry Fee activity is therefore categorized as softball. The $0 baseball scorecard is treated as $0 in Calculated Team Entry Fees attributed to baseball; it should not automatically be interpreted as proof that no underlying baseball operational activity existed unless the underlying records establish that conclusion.

Tournament, League & $0.00-Fee Methodology

The Hidden Valley dataset includes both tournament and league activity. Some league records may document teams, divisions, dates, directors, facilities, locations, and other operational information while displaying a **$0.00 Team Entry Fee**.

$0.00 in Calculated Team Entry Fees does not necessarily mean $0.00 in documented operational activity. A $0.00 public Team Entry Fee means the captured public USSSA information did not identify a Team Entry Fee for that record. Additional records would be required to determine whether no fee was charged or whether a fee was administered locally outside the public Team Entry Fee field.

Participating Teams x Publicly Posted Team Entry Fee = Calculated Team Entry Fees. When a record displays $0.00, the dataset records $0.00 rather than estimating an unsupported fee. Calculated Team Entry Fees are not USSSA-reported aggregate revenue, director income, personal compensation, profit, taxable income, net proceeds, or audited financial statements.

Calculated Team Entry Fees by Season

Season	Calculated Team Entry Fees
2016	$164,406
2015	$141,669
2014	$153,912

2016 is the largest displayed season at $164,406, followed by 2014 at $153,912 and 2015 at $141,669. The three displayed seasons reconcile to the $459,987 Total Calculated Team Entry Fee figure. The season chart measures calculated fee activity and does not necessarily capture every form of operational activity represented by $0.00-fee records.

Calculated Team Entry Fees by Municipality

Municipality	Calculated Team Entry Fees
Oklahoma City	$459,987

The visible municipality dimension is completely concentrated in **Oklahoma City at $459,987**. This identifies a geographic association in the underlying event records and should not be interpreted as $459,987 in municipal revenue or money received by the City of Oklahoma City.

Calculated Team Entry Fees by Facility

Facility / Classification	Calculated Team Entry Fees
Oklahoma City	$295,581
Davis Ballpark	$164,406

The facility dimension divides the displayed activity between **Oklahoma City - $295,581** and **Davis Ballpark - $164,406**. These amounts total $459,987. The source report does not identify which specific facility or facilities are encompassed by the broader 'Oklahoma City' classification; the methodology therefore does not infer a more specific identity without additional records.

Unlike profiles containing slash-separated multi-facility records, the visible Sam Goebel - MSP Sports facility chart shows two separately displayed classifications. Facility values do not establish facility rental payments, revenue sharing, facility income, allocation of Team Entry Fees, distributions, net proceeds, or subsequent disposition of event funds.

Calculated Team Entry Fees by County

County	Calculated Team Entry Fees
Oklahoma County	$459,987

The visible county dimension is completely concentrated in **Oklahoma County at $459,987**. This corresponds with the Oklahoma City municipality classification and reinforces the geographic concentration of the displayed activity.

Geographic & Facility Concentration

This is a comparatively concentrated director profile. All displayed municipality-level activity is associated with Oklahoma City and all displayed county-level activity is associated with Oklahoma County. The facility dimension further identifies Davis Ballpark for $164,406 of the calculated activity, while $295,581 is grouped under the broader Oklahoma City facility classification. These relationships establish geographic and facility associations, but they do not establish ownership or ultimate receipt of event proceeds.

Page 2 - USSSA Organizational Structure

Page 2 provides organizational context rather than additional Sam Goebel-specific financial findings. The infographic depicts the general authority flow as **USSSA National -> State Director -> Area Director -> Tournament Director -> Tournament/Event -> Teams**.

The graphic describes USSSA National as establishing rules, policies and procedures and appointing State Directors; State Directors as administering programs within the state and overseeing Area Directors; Area Directors as USSSA appointees/independent contractors operating within a defined jurisdiction; Tournament Directors as managing sanctioned events; and teams as registering for events and paying applicable entry fees.

Page 2 - Applicable Online Payment Flow

The source infographic depicts an applicable online event-payment pathway as **Teams -> USSSA Online Payment System -> USSSA -> ACH -> Event/Fiscal Director -> Tournament Operations**. This is explanatory context and should not be interpreted to mean every tournament or league payment necessarily followed that exact pathway.

The subsequent disposition of event funds is not determined by the Hidden Valley dataset unless independently documented. The graphic does not establish ownership of funds, individual compensation, tax liability, legal liability, or ultimate disposition of tournament proceeds.

What the Profile Establishes - and What It Does Not

Publicly Documented / Calculated	Not Established by Dataset Alone
Sam Goebel - MSP Sports is identified as a USSSA Area Director.	Personal income or compensation received by Sam Goebel.
$459,987 in Total Calculated Team Entry Fees, categorized as softball.	Actual event net profit, taxable income, or audited financial results.
789 teams, 43 divisions, 2,730 minimum games and 5,460 minimum officials.	That Calculated Team Entry Fees equal money personally received.
2014-2016 season activity displayed in the report.	Unreported financial activity outside the public Team Entry Fee field.
Oklahoma City, Oklahoma County and displayed facility associations.	Facility rental payments, revenue sharing, or facility income.
Tournament and league activity may include $0.00-fee operational records.	Whether any $0.00-fee league or event collected fees locally.
Applicable USSSA organizational/payment documentation.	Ultimate disposition of event funds without independent documentation.

Sam Goebel - MSP Sports Director-Specific Summary

The report identifies **Sam Goebel - MSP Sports as a USSSA Area Director** and displays **$459,987 in Total Calculated Team Entry Fees**, consisting of **$0 baseball and $459,987 softball**. The profile contains **789 teams, 43 divisions, 2,730 minimum games played, and 5,460 minimum required officials**.

The profile covers **2014 through 2016**, with **2016 the largest displayed season at $164,406**. The visible geographic activity is completely concentrated in **Oklahoma City - $459,987** and **Oklahoma County - $459,987**. The facility dimension is divided between **Oklahoma City - $295,581** and **Davis Ballpark - $164,406**.

The $0 baseball scorecard is treated as $0 in Calculated Team Entry Fees attributed to baseball, rather than automatically as proof of no underlying baseball operational activity. Likewise, any $0.00-fee tournament or league records remain relevant to the operational analysis even when they contribute $0 to Calculated Team Entry Fees.

What This Report Ultimately Represents

This document should be understood as a **USSSA Director Activity Profile rather than simply a revenue report**. It combines calculated financial measurement with operational measurement: who was associated with the activity; the USSSA classification displayed; sport; tournament and league activity where documented; teams and divisions; minimum games and officials; publicly posted Team Entry Fees; Calculated Team Entry Fee activity; seasons; municipalities; counties; facilities; and USSSA organizational/applicable online-payment documentation.

The larger Hidden Valley project applies the same methodology consistently across approximately **249 Oklahoma USSSA Director Activity Profiles** so tournament activity, league activity, sport, Calculated Team Entry Fees, $0.00-fee activity, facility use, geographic concentration, and operational scale can be evaluated using a common analytical framework.

Research & Methodology Disclaimer

This document is an independent research and analytical publication and is **not affiliated with, endorsed by, sponsored by, or prepared on behalf of USSSA (United States Specialty Sports Association)** or any governmental entity. It is based on the supplied Sam Goebel - MSP Sports USSSA Director Report and the standardized Hidden Valley methodology.

Financial figures identified as Calculated Team Entry Fees are estimates derived by multiplying publicly reported team participation by the publicly posted entry fee applicable to the corresponding tournament, event, or division. These calculated amounts should **not** be interpreted as USSSA-reported revenue, Sam Goebel's income, profit, taxable income, personal compensation, net proceeds, or audited financial statements.

The organizational and financial-flow graphics are provided for research and explanatory purposes. They should not be interpreted as establishing ownership of funds, individual compensation, tax liability, legal liability, or ultimate disposition of tournament proceeds.

Public records and online information may contain omissions, revisions, errors, cancellations, refunds, discounts, payment adjustments, or other circumstances that cannot be independently verified from publicly available information. **The Hidden Valley methodology does not fill evidentiary gaps with unsupported assumptions.** Readers should independently review source materials before drawing legal, financial, tax, or regulatory conclusions.
