JENKS YOUTH BASEBALL COMPLEX

Hidden Valley - Integrity of the Game | Oklahoma USSSA Baseball & Softball | Facility Summary | 2001-2026

DIRECT / STAND-ALONE PRIMARY FACILITY			
Calculated Team Entry Fees	$1,489,318	**Baseball**	$1,453,658
Softball	$35,660	**Total Teams**	9,127
Minimum Games	21,507	**Minimum Officials**	36,271
Directors	11	**Municipalities / Counties**	2 / 1
League Teams	448	**League Calculated Entry Fees**	$0.00

Executive Summary

The report identifies Jenks Youth Baseball Complex as the selected Primary Facility. In the conservative stand-alone population - records listing the complex independently - the dataset reports $1,489,318 in Calculated Team Entry Fees, including $1,453,658 in baseball and $35,660 in softball activity. This direct population includes 9,127 teams, at least 21,507 games, and at least 36,271 officials assigned across 11 tournament directors, two municipalities, and one county.

The report also identifies 448 league teams with $0.00 in publicly displayed league Team Entry Fees. Under the report methodology, a $0.00 listing must not be converted into an assumed fee and does not establish that no operational or other economic activity occurred.

Annual Activity Pattern

Season	Total	Season	Total
2026	$197.67K	2025	$169.23K
2024	$201.02K	2023	$220.42K
2022	$121.58K	2021	$129.07K
2020	$3.74K	2019	$22.48K
2018	$474	2017	$5.52K
2016	$9.42K	2015	$4.42K
2014	$2.00K	2013	$6.51K

2012	$3.57K	2011	$67.20K
2010	$57.60K	2009	$64.92K
2008	$61.09K	Others	$141.39K

The highest displayed direct season is 2023 at $220.42K. Baseball is the dominant sport in the direct record population; its highest displayed season is also 2023 at $220.42K. Softball appears in eight displayed seasons, with its highest value in 2016 at $9.42K.

Associated Multi-Facility / Satellite Activity

Metric	Associated population
Calculated Team Entry Fees	$579,272
Baseball / Softball	$524,572 / $54,700
Teams	2,511
Minimum Games / Officials	6,041 / 11,564
Facilities / Directors	20 / 8
Municipalities / Counties	13 / 4

Page 3 excludes the stand-alone Jenks Youth Baseball Complex records and isolates events in which the complex was identified together with one or more additional facilities. The largest displayed facility combination is Jenks Youth Baseball Complex + Sand Springs Youth Baseball at $277.21K. The next largest is Glenpool Sports Complex + Jenks Youth Baseball Complex at $93.90K. Other material combinations include the Berryhill/Hilldale/Indian Springs/Jenks/Owasso South/Prue configuration at $27.71K and the Bentley/Indian Springs/Jenks/Owasso South/Sand Springs configuration at $26.56K.

The associated population spans 13 municipality configurations and four counties. Lynn Gibson is the largest director concentration in this population at $436.49K, followed by Rick Glasser at $54.27K and Wally Fortuna at $33.81K.

Combined Documented Activity Footprint

Metric	Combined footprint
Calculated Team Entry Fees	$2,068,590
Baseball / Softball	$1,978,230 / $90,360
Teams	11,638
Minimum Games / Officials	27,548 / 47,835
Facilities / Directors	21 / 12
Municipalities / Counties	14 / 4

Page 4 combines the direct stand-alone population with the associated multi-facility population. It therefore represents the broadest documented activity footprint involving Jenks Youth Baseball Complex. Within this combined view, Jenks is the dominant municipality concentration at approximately $1.52M, and Lynn Gibson is the largest director concentration at approximately $1.45M. These concentrations describe records associated with the facility; they do not establish ownership, receipt, or allocation of the calculated amounts.

Interpretation & Evidentiary Limits

Association is not allocation. For multi-facility records, the public event record establishes that the listed facilities were associated with the same event, but it may not establish how teams, games, officials, fees, or other activity were distributed among those locations. The full amount for a facility combination must not be assigned to each component facility.

Calculated Team Entry Fees are an analytical measure, not verified revenue. The report methodology calculates Number of Teams x Publicly Posted Team Entry Fee at the applicable event-record level. These figures do not, by themselves, establish actual collections, gross receipts, facility or municipal revenue, director compensation, profit, taxable income, gate or concession revenue, bank deposits, or disposition of funds.

The Hidden Valley dataset is an independent research reconstruction based primarily on publicly accessible historical USSSA information. Historical records can contain missing fields, naming variations, reused or inconsistent identifiers, facility-name changes, and zero-dollar listings. The project is not an official USSSA report, audit, tax determination, forensic accounting

conclusion, or legal finding, and identification of a person or organization does not itself imply wrongdoing.

Facility-Specific Synthesis

Jenks Youth Baseball Complex shows a substantial long-term documented USSSA activity footprint in the report. The conservative direct view identifies $1.489 million in Calculated Team Entry Fees and 9,127 teams, with baseball accounting for approximately 97.6% of the direct calculated amount. The associated multi-facility population adds $579,272 in event-level calculated activity across 20 facility configurations. Together, the combined documented footprint is $2.069 million, 11,638 teams, at least 27,548 games, and at least 47,835 officials across 21 facilities, 12 directors, 14 municipality configurations, and four counties. These figures are best used to measure documented scale, concentration, geographic reach, and operational relationships while preserving the distinction between association, allocation, and independently verified financial receipt.
